APPROVAL OF STATE ENGINEER
following limitations and conditions: This permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 22169, Certificate 7526 is issued subject to the terms and condition imposed in said Permit 22169, Certificate 7526 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and altimes. This permit does not extend the permittee the right of ingress and egress or public, private or corporate lands. The total combined duty of water under Permits 58166 and 58168 shall not exceed 160 acre-feet annually. The total combined duty of water under Permits 55955, 58166 and 58168 shall not exceed 548.8 acre-feet annually. The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies. This permit is issued as a supplemental ground water right to Claim No. 45 and to any storage rights as set forth in the Walker River Decree. The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed. 0.1 cubic feet per second , but not to exceed 36.0 acre-feet annually, and not to exceed a yearly duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources.
